

Benjamin R. Woodard

PROFESSIONAL SUMMARY

Ben Woodard is a Full-Stack Java, Spring Boot Web developer and a graduate of Cook Systems FastTrack Program as well as Coders Campus Full-Stack Java Bootcamp. Coming with a background in professional beer brewing experience, Ben spent seven years advancing his career, holding multiple leadership and operations management roles. Ben has pursued technology to become proficient with Java and Java frameworks such as Spring, Spring MVC, Hibernate, Maven, Thymeleaf, JavaScript and Angular. Ben brings a passion for learning and a strong ability to effectively operate and lead in high pressure, time sensitive situations.

TECHNICAL SKILLS

Programming: Java, JavaScript, HTML5, CSS3, SQL, Spring, Spring Boot, JDBC, Jackson, JPA, Hibernate, Thymeleaf, Maven, npm, Babel
Software: IntelliJ, Eclipse, VS Code, Git, GitHub, gitBash, pgAdmin
Databases: PostgreSQL, MySQL, H2
Operating Systems: Windows

PROFESSIONAL EXPERIENCE

COOK SYSTEMS – Remote
FastTrack Developer

04/24 – Present

Assessment #1 – Twitter Backend Clone

- Implemented a RESTful Spring Boot API to mimic Twitter CRUD operations.
- Created all entity classes and relationships to accurately represent PostgreSQL design schema.
- Tested and ensured accurate entity CRUD operations and accurate data persistence.
- Utilized Mapstruct for accurate JSON object and entity creation.

Environment: Spring Boot, Spring JPA, Java, Hibernate, PostgreSQL, Maven

AURORA BREWING COMPANY– Aurora, NY
Head Brewer/ Production Manager

01/22 – 07/23

- Facilitated a 21% increase in Net Product Output with a 0% increase in labor cost through creating an efficient production schedule.
